

International Tea & Coffee Expo

On October 13 the “International Tea & Coffee Expo” was held on the campus of the University of Miyazaki as part of this year’s UoM Global Week 2015 activities. Around 100 students from Afghanistan, Indonesia, Mauritania, Myanmar, Nepal, Vietnam and other countries provided coffee and tea drinks from their countries to visitors. The event Around 2,000 drinks were distributed in total.

Japanese students enjoyed the delicious drinks as well as the opportunity to learn more about foreign cultures. The students were amazed by the great diversity of coffee and tea drinks available. The event also made them more aware of the expanding community of international students on campus.

Global Week is one example of the efforts that are underway to enhance the international scope of UoM and build a “global campus.” Other efforts include the opening of five overseas offices (in four countries) and efforts to attract even more outstanding foreign students to the University of Miyazaki.
